DIRECTORS' STATEMENT

The directors are pleased to present their statement to the members together with the audited financial statements of **DHAMPUR INTERNATIONAL PTE. LTD.** (the "company") for the financial year ended 31 March 2017.

1. OPINION OF THE DIRECTORS

In the opinion of the directors,

- (a) the financial statements of the company are drawn up so as to give a true and fair view of the financial position of the company as at 31 March 2017 and the financial performance, changes in equity and cash flows of the company for the year then ended; and
- (b) at the date of this statement, with the continued financial support from its holding company, there are reasonable grounds to believe that the company will be able to pay its debts as and when they fall due.

2. DIRECTORS

The directors of the company in office at the date of this statement are:

Gaurav Goel Gautam Goel Siti Dayana Binte Muhammad Zalmisham

3. ARRANGEMENTS TO ENABLE DIRECTORS TO ACQUIRE SHARES AND DEBENTURES

Neither at the end of nor at any time during the financial year was the company a party to any arrangement whose objects are, or one of whose objects is, to enable the directors of the company to acquire benefits by means of the acquisition of shares in, or debentures of, the company or any other body corporate.

4. DIRECTORS' INTERESTS IN SHARES AND DEBENTURES

The directors who held office at the end of the financial period had no interests in the shares of the company as recorded in the register of director's shareholdings required to be kept by the company under Section 164 of the Singapore Companies Act, Chapter 50.

DIRECTORS' STATEMENT - cont'd

5. SHARE OPTIONS

There were no share options granted during the financial year to subscribe for unissued shares of the company.

There were no shares issued during the financial year by virtue of the exercise of an option to take up unissued shares of the company.

There were no unissued shares of the company under option at the end of the financial year.

6. **AUDITOR**

Rama & Co. has expressed its willingness to accept re-appointment as auditor.

On behalf of the Directors

Gautam Goel

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF DHAMPUR INTERNATIONAL PTE. LTD.

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **DHAMPUR INTERNATIONAL PTE. LTD.** (the "Company"), which comprise the statement of financial position of the Company as at 31 March 2017, and statement of comprehensive income, statement of changes in equity and statement of cash flows of the Company for the year then ended, and notes to financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements of the Company are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 (the Act) and Financial Reporting Standards in Singapore (FRSs) so as to give a true and fair view of the financial position of the Company as at 31 March 2017 and of the financial performance, changes in equity and cash flows of the Company for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing (SSAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Accounting and Corporate Regulatory Authority (ACRA) Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities (ACRA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the financial statements, which indicates that the Company has incurred a net loss of **US\$1,003,795** during the financial year ended 31 March 2017, and as of the date, the Company's total liabilities exceeded its total assets by **US\$1,141,373**. As stated in Note 1, these events or conditions, as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. The ability of the Company to continue depends on the ultimate holding company undertaking to provide continuing financial support to enable the Company to continue as a going concern. The directors are satisfied the financial support will be available when required. Our opinion is not modified in respect of this matter.

Other Information

Management is responsible for the other information. The other information comprises the Directors' Statement set out on pages 1 and 2.

...2/-

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF DHAMPUR INTERNATIONAL PTE. LTD. – cont'd

Other Information - cont'd

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

(a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF DHAMPUR INTERNATIONAL PTE. LTD. – cont'd

Auditor's Responsibilities for the Audit of the Financial Statements - cont'd

- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- (d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirement

In our opinion, the accounting and other records required by the Act to be kept by the Company have been properly kept in accordance with the provisions of the Act.

NOTES TO THE FINANCIAL STATEMENTS - 31 MARCH 2017

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

GENERAL

a) Corporate information

Dhampur International Pte. Ltd. ("the company") (Registration number: 200912388N) is a private limited company incorporated and domiciled in the Republic of Singapore with its registered office at:

39 Amoy Street Singapore 069865

The principal activities of the company are to carry on business of importers, exporters of white crystal sugar, ethyl acetate, ethyl alcohol and yellow soybeans.

b) Going concern assumption

The company incurred a net loss of **US\$1,003,795** for the financial year ended 31 March 2017 and, as of the date, the company's total liabilities exceeded its total assets by **US\$1,141,373**. These factors indicate the existence of an uncertainty which may affect the validity of the going concern assumption on which the accompanying financial statements are prepared.

The holding company has agreed to provide continuing financial support to the company to enable the Company to meet its obligations as and when the need arises. In addition to that, the holding company will allow the Company to defer the repayment of amount due to the holding company until such time as the company's cash flow enables such payments.

The directors are of the view that it is appropriate to prepare these financial statements on a going concern basis on the assumption that the Company will generate adequate cash flows from operations and will continue to receive continuing financial support from the holding company.

If the Company is unable to continue in operational existence for the foreseeable future, the Company may be unable discharge its liabilities in the normal course of business and adjustments may have to be made to reflect the situation that assets may need to be realised other than in the normal course of business and at amounts which could differ from the amounts at which they are currently recorded in the statement of financial position.

b) Authorisation of financial statements for issue

The financial statements of the company for the period ended 31 March 2017 were authorised for issue by the Board of Directors on 18 May 2017.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1. Basis of Preparation

The financial statements are prepared in accordance with the historical cost convention, except as disclosed in the accounting policies below, and are drawn up in accordance with the provisions of the Singapore Companies Act and Singapore Financial Reporting Standards ("FRS") including related interpretations of FRS ("INT FRS") promulgated by the Accounting Standards Council ("ASC").

The preparation of financial statements in conformity with FRS requires management to exercise its judgement in the process of applying the company's accounting policies. It also requires the use of accounting estimates and assumption that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the financial period. Although these estimates are based on management's best knowledge of current events and actions, actual results may ultimately differ from those estimates. Critical accounting judgements estimates and assumptions used that are significant to the financial statements are areas involving a higher degree of judgements or complexity are disclosed in Note 4.

2.2. Changes in Accounting Policies

a) Adoption of new revised FRSs and INT FRSs

In the current financial year, the company has adopted all the new and revised FRSs and Interpretations of FRS ("INT FRS") that are relevant to its operations and effective for annual periods beginning on or after 1 April 2016. The adoption of these new/revised FRSs and INT FRSs does not result in changes to the company's accounting policies and has no material effect on the financial statements.

b) Standards issued but not yet effective

As at the date of the authorisation of these financial statements, the company has not adopted the following FRSs and INT FRSs that have been issued but not yet effective:

| | | Effective for |
|------------------|---|-----------------------|
| | | annual periods |
| <u>Reference</u> | <u>Description</u> | beginning on or after |
| FRS 7 | Statement of Cash flows: Disclosure Initiative (Amendments) | 1 January 2017 |
| FRS 109 | Financial Instruments | 1 January 2018 |
| FRS 115 | Revenue from Contract with Customers | 1 January 2018 |
| FRS 115 | Revenue from Contract with Customers (Amendment) Clarification to FRS 115 | 1 January 2018 |
| INT FRS 112 | Foreign Currency Transactions and Advance Considerations | 1 January 2018 |

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

2.2. Changes in Accounting Policies - cont'd

b) Standards issued but not yet effective

The company expect that the adoption of the above standards will have no material impact on the financial statements in the period of initial application, except as described below:

i) FRS 7: Statement of Cash flows: Disclosure Initiative (Amendments)

The amendments to FRS 7 Statement of Cash flows are part of the ASC's Disclosure Initiative and require an entity to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. On initial application of the amendment, entities are not required to provide comparative information for preceding periods. These amendments are effective for annual periods beginning on or after 1 January 2017, with early application permitted. Application of amendments will result in additional disclosure provided by the company.

ii) FRS 109: Financial Instruments

FRS 109 introduces new requirement for classification and measurement of financial assets, impairment of financial assets and hedge accounting. Financial assets classified according to their contractual cash flow characteristics and the business model under which they are held. The impairment requirements in FRS 109 are based on an expected credit loss model and replace the FRS 39 incurred loss model. Adopting the expected credit losses requirements will require the company to make changes to its current systems and processes.

FRS 109 is effective for annual periods beginning on or after 1 January 2018 with early application permitted. Retrospective application is required, but comparative information is not compulsory. The company will be assessing the impact of FRS 109 and plans to adopt the standard on the required effective date.

iii) FRS 115: Revenue from Contracts with Customers

FRS 115 establishes a five-step model that will apply to revenue arising from contracts with customers. Under FRS 115, revenue is recognised at an amount that reflects the consideration which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in FRS 115 provide a more structured approach to measuring and recognising revenue when the promised goods and services are transferred to the customer i.e. when performance obligations are satisfied.

Key issues for the company include identifying performance obligations, accounting for contract modifications, applying the constraint to variable consideration, evaluating significant financing components, measuring progress toward satisfaction of a performance obligation, recognising contract cost assets and addressing disclosure requirements.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

2.2. Changes in Accounting Policies - cont'd

b) Standards issued but not yet effective - cont'd

iii) FRS 115: Revenue from Contracts with Customers - cont'd

In June 2016, amendments to FRS 115 were issued to provide clarifications on (i) identifying performance obligations (ii) principal versus agent considerations and (iii) licensing application guidance. The amendments also included two additional transition reliefs on contract modifications and completed contracts.

Either a full or modified retrospective application is required for annual periods beginning on or after 1 January 2018 with early adoption permitted. The company will be assessing the impact of FRS 115 and plans to adopt the new standard on the required effective date.

v) INT FRS 122: Foreign Currency Transactions and Advance Consideration

This Interpretation provides requirements about which exchange rate to use in reporting foreign currency transactions (such as revenue transactions) when payment is made or received in advance.

The Interpretations are effective from 1 January 2018.

On initial application, entities would have the option of applying the Interpretation either retrospectively or prospectively in accordance with FRS 8 – Accounting Policies, Changes in Accounting Estimates and Errors. The company is currently assessing the impact.

2.3. Plant and Equipment

a) Measurement

All items of plant and equipment are initially recorded at cost. The cost of an item of plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. Subsequent to recognition, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses if any.

b) Component of costs

The cost of an item of plant and equipment includes its purchase price and any cost that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. The projected cost of dismantlement, removal or restoration is also included as part of the cost of plant and equipment if the obligation for the dismantlement, removal or restoration is incurred as a consequence of acquiring or using the asset.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

2.3. Plant and Equipment - cont'd

c) Depreciation

Depreciation is calculated on the straight line method and to write off the cost of the assets over their estimated useful lives of three years as follows:

| | <u>Years</u> |
|------------------------|--------------|
| Furniture and fittings | 3 |
| Office equipments | 3 |
| Motor vehicles | 5 |

Fully depreciated assets are retained in the financial statements until they are no longer in use.

The residual values and useful life plant and equipment are reviewed, and adjusted as appropriate, at each end of reporting period. The effects of any revision of the residual values and useful lives are included in the profit and loss statement for the financial period in which the changes arise.

d) Subsequent expenditure

Subsequent expenditure relating to plant and equipment that has already been recognised is added to the carrying amount of the asset only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. Other subsequent expenditure is recognised as repair and maintenance expense in the profit and loss statement during the financial period in which it is incurred.

e) Disposal

On disposal of an item of plant and equipment, the difference between the net disposal proceeds and its carrying amount is taken to the profit and loss statement. Any amount in revaluation reserve relating to that asset is transferred to retained earnings directly.

2.4. Impairment of Non-Financial Assets

At each end of reporting period, the company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

2.4. Impairment of Non-Financial Assets – cont'd

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the profit and loss statement, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior periods. A reversal of an impairment loss is recognised immediately in the profit and loss statement, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

2.5. <u>Income Taxes</u>

Income tax expense represents the sum of the tax currently payable and deferred tax.

a) Current tax

The tax currently payable is based on taxable profit for the period. Taxable profit differs from profit as reported in the statement of comprehensive income because it excludes items of income or expense that are taxable or deductible in other periods and it further excludes items that are not taxable or tax deductible. The company's liability for current tax is calculated using tax rates that have been enacted.

b) Deferred tax

Deferred income tax is provided, using the liability method on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all temporary differences except where the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at that time of the transaction, affects neither accounting profit nor taxable profit or loss.

Deferred income tax assets are recognised for all deductible temporary differences carry-forward of unused tax assets and unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, carry-forward of unused tax assets and unused tax losses can be utilised except where the deferred tax asset relating to the deductible temporary difference arise from the initial recognition of an asset or liability in a transaction and at the time of transaction affects neither the accounting profit nor taxable profit or loss.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

2.5. Income Taxes - cont'd

b) Deferred tax - cont'd

The carrying amount of a deferred tax asset is reviewed at the end of the each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred income tax assets are reassessed at end of each reporting period and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the end of reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.6. Revenue Recognition

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and for the rendering of services in the ordinary course of the company's activities. Amounts disclosed as revenue are net of goods and services tax, rebates and discounts.

The company recognises revenue when the amount of revenue and related cost can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the company's activities as described below:

a) Sale of goods

Revenue from the sale of goods is recognised when all the following conditions are satisfied:

- the company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the company; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

2.6. Revenue Recognition - cont'd

b) Interest income

Interest revenue is recognised on a time-proportion basis using the effective interest rate that takes into account the effective yield on the asset.

c) Government grant

Cash grants received from government are recognised as income upon receipt.

d) Commission income

Revenue from commission is recognised when the services are rendered.

e) Insurance claim

Revenue from insurance claim is recognised when an offer of settlement received from the insurer and the claim amount is virtually certain.

2.7. Foreign Currency Transactions

a) Functional and presentation currency

The management has determined the currency of the primary economic environment in which the company operates i.e. functional currency, to be United States dollars. Revenue and major operating expenses are primarily influenced by fluctuations in United States dollars. The financial statements of the company are presented in United States dollars, which is the functional currency of the company.

b) Foreign currency transactions

Transactions in foreign currencies are measured in the functional currency of the company and are recorded on initial recognition in the functional currency at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the end of the reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the end of reporting period are recognised in the statement of comprehensive income.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

2.8. Provisions

Provisions are recognised when the company has present obligations (legal or constructive) as a result of a past event, it is probable that the company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.9. Contingent Liabilities and Contingent Assets

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company. It can also be a present obligation arising from past events that is not recognised because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognised but is disclosed in the notes to the financial statements. When a change in the probability of an outflow occurs so that the outflow is probable, it will then be recognised as a provision. A contingent asset is a possible asset that arises from past events and whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain events not wholly within the control of the company.

Contingent assets are not recognised but are disclosed in the notes to the financial statements when an inflow of economic benefits is probable. When inflow is virtually certain, an asset is recognised.

2.10. Leases

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at inception date whether fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

2.10. Leases - cont'd

Leases are classified as finance leases wherever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

a) Finance leases

A finance lease is recognised as an asset and as liability in the statement of financial position at amounts equal at the inception of the lease to the fair value of the leased asset or, if lower, at the present value of the lease payments based on the interest rate implicit in the lease. The excess of the lease payments over the recorded lease obligations is treated as finance charged which are allocated to each lease term so as to produce a constant rate of charge on the remaining balance of the obligations.

Capitalised leased assets are depreciated over the shorter of the estimated useful life of the asset and the lease term, if there is no reasonable certainty that the company will obtain ownership by the end of the lease term.

b) Operating leases

Operating leases are not recognised in the company's statement of financial position. Rentals payables under operating leases are charged to profit or loss statement on a straight-line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Company as lessee

The company lease office premises and director accommodation under operating leases from non-related parties.

Leases of premises, where substantially all risks and rewards incidentals to ownership are retained by the lessors are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessors) are recognised in the profit and loss statement on a straight-line basis over the period of the lease.

Contingent rents are recognised as an expense in the profit and loss statement when incurred.

2.11. Borrowing Costs

Borrowing costs are generally expensed as incurred. Borrowing costs are capitalised if they are directly attributable to the acquisition, of a qualifying asset. Capitalisation of borrowing cost commences, when the activities to prepare the asset for its intended use and expenditure and borrowing costs are being incurred. Borrowings costs are capitalised until the assets are ready for their intended use.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

2.12. Events after the Reporting Period

Events after the reporting period that provide additional information about the company's position at the end of reporting period or those that indicate the going concern assumption is not appropriate are adjusting events and are reflected in the financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes to the financial statements when material.

3. FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are recognised on the company statement of financial position when the company becomes a party to the contractual provisions of the instrument.

3.1. Financial Assets

Financial assets within the scope of FRS 39 are recognised on the statement of financial position when, and only when the company becomes a party to the contractual provisions of the financial instruments. The classification of financial assets depends on the purpose of which the assets were acquired. Management determines the classification of its financial assets at initial recognition and re-evaluates this designation at every reporting date. There are no financial assets categories at fair value through profit and loss statement and held-to-maturity.

a) Effective Interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial instrument, or where appropriate, a shorter period. Income is recognised on an effective interest rate basis for debt instruments other than those financial instruments "at fair value through statement of comprehensive income".

b) Loan and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are classified within "trade and other receivables" and "cash and bank balances" on the statements of financial position.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

3. FINANCIAL INSTRUMENTS – cont'd

3.1. Financial Assets - cont'd

b) Loan and receivables

i) Trade and other receivables

Trade and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as trade and other receivables. Trade and other receivables are measured at initial recognition at the fair value, and are subsequently measured at amortised cost using the effective interest rate method, except for short-term receivables when the recognition of interest would be immaterial.

ii) Cash and bank balances

Cash and bank balances comprise cash on hand and bank balances that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

c) Impairment of financial assets

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been impacted. For financial assets carried at amortised cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade and other receivables where the carrying amount is reduced through the use of an allowance account. When a trade and other receivable are uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to statement of comprehensive income. Changes in the carrying amount of the allowance account are recognised in statement of comprehensive income.

d) Derecognition of financial assets

A financial asset is derecognised when:

- i) the company transfer the contractual rights to receive the cash flows of the financial asset; or
- ii) the company retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients in a 'pass-through' arrangement; or
- iii) the company has transferred its rights to receive cash flows from the asset and either has transferred substantially all the risks and rewards of the asset, or has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

3. FINANCIAL INSTRUMENTS - cont'd

3.1. Financial Assets - cont'd

d) Derecognition of financial assets - cont'd

Where the company has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the company's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

Where continuing involvement takes the form of a written and/or purchased option on the transferred asset, the extent of the company's continuing involvement is the amount of the transferred asset that the company may repurchase, except that in the case of a written put option on an asset measured at fair value, the extent of the company's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

3.2. Equity and Financial Liabilities

Classification as equity or debts

Equity instruments issued by the company and financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of an equity instrument and a financial liability. Financial liabilities are recognised on the statement of financial position when, and only when the company becomes a party to the contractual provisions of the financial statements.

a) Effective interest rate method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payment through the expected life of the financial liability, or, where appropriate, a shorter period.

b) Financial liabilities

Financial liabilities are recognised on the statement of financial position when the Company becomes a party to the contractual provision for the financial instrument. The measurement of financial liabilities depends on their classification as either financial liabilities "at fair value through profit or loss" or "other financial liabilities at amortised costs".

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

3. FINANCIAL INSTRUMENTS - cont'd

3.2. Equity and Financial Liabilities – cont'd

Classification as equity or debts - cont'd

b) Financial liabilities - cont'd

i) Financial liabilities at amortised cost

Financial liabilities are initially recognised at value plus directly attributable costs and subsequently measured at amortised cost using the effective interest rate method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process. Financial liabilities at amortised cost are classified within "trade and other payables" and "finance leases" on the statement of financial position.

Other financial liabilities

Trade and other payables and finance leases are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

c) Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired.

Where an existing financial liability is replaced by another form the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respectively carrying amounts is recognised in the statement comprehensive income.

d) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued by the company are recorded at the proceeds received, net of direct issue costs.

e) Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount reported in the statements of financial position when there is a legally enforceable right to offset the recognised amounts and there is an obligation to settle on a net basis, or realise the asset and settle the liability simultaneously.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

a) Critical judgement in applying the company's accounting policies

In the application of the company's accounting policies, which are described in Note 2 to the financial statements, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

i) Deferred tax assets

Deferred tax assets are recognised for all unused tax losses and temporary differences to the extent that it is probable that taxable profit will be available against which the losses and temporary differences can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. Further details are contained in Note 17 to the financial statement.

ii) Determination of functional currency

In determining the functional currency of the company, judgement is required to determine the currency that mainly influences sales prices for goods and services and of the country whose competitive forces and regulations mainly determines the sales prices of its goods and services. The functional currency of the company is determined based on management's assessment of the economic environment in which the company operate and process of determining sales prices. The company measures foreign currency transactions in the functional currency of the company.

iii) Going concern basis of preparation

The financial statements of the Company have been prepared on a going concern basis as the directors are confident that the company is able to generate positive operating cash flows from its operations and the continuing support from its holding company to enable the company to pay its debts as and when they fall due. The appropriateness of the going concern basis is assessed after taking into consideration all relevant information about the future of the company available at the date of this report.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY – cont'd

b) Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period, are discussed below:

i) Depreciation of plant and equipment

Plant and equipment are depreciated on a straight-line basis over the estimated useful lives after taking into account the estimated residual value. The company reviews the estimated useful lives of the assets regularly based on the factors that include asset utilisation, internal technical evaluation, technological changes, environmental and anticipated use of the assets tempered by related industry benchmark information in order to determine the amount of depreciation expense to be recorded during any reporting period. Changes in the expected level of use of the assets and the company's historical experience with similar assets after taking into account anticipated technological changes could impact the economic useful lives and the residual values of the assets, therefore future depreciation charges could be revised. Any changes in the economic useful lives could impact the depreciation charges and consequently affect the company's result. The carrying amount of plant and equipment as at 31 March 2017 was **US\$145,110** (2016: US\$208,999).

ii) Impairment of plant and equipment

The company assesses annually whether plant and equipment have any indication of impairment in accordance with the accounting policy. The recoverable amounts of plant and equipment have been determined based on value-in-calculations. These calculations require the use of judgement and estimates.

iii) Allowances for doubtful accounts

An allowance is made for doubtful accounts for estimated losses resulting from the subsequent inability of the customers to make required payments. If the financial conditions of the customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required in future periods. Management specifically analyses accounts receivables and analyses historical bad debt, customer concentrations, customer creditworthiness, current economic trends and changes in our customer payment terms when making a judgements to evaluate the adequacy of the allowance for doubtful accounts. At the end of the reporting period, the receivables are measured at fair value and their fair values might change materially within the next financial period but these changes would not arise from assumptions or other sources of estimates uncertainty at the end of the reporting period. The carrying amount of trade and other receivables as at 31 March 2017 was US\$2,041,916 (2016: US\$2,718,809)

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY – cont'd

b) Key sources of estimation uncertainty - cont'd

iv) Impairment of other current assets

The company's management reviews other current assets on a regular basis to determine if any provision for impairment is necessary. The impairment loss on deposits, advance with staffs and other receivables is established when there is evidence that the company will not be able to collect all amounts due according to the original terms of purchase of goods or to receive the services according to the original terms of contracts. Significant financial difficulties of the deposit holder, probability that the deposit holder will enter in to bankruptcy or financial reorganization, and default or delinquency in payments are considered indicators that the deposits and advance with supplier are impaired. Management reassesses the impairment of deposits and advance with suppliers at each reporting date.

v) Provisions

Provisions are recognised in accordance with the accounting policy in Note 2.8. To determine whether it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made, the company takes into consideration factors such as the existence of legal/contractual agreements, past historical experience, external advisors' assessments and other available information.

vi) Contingent liabilities

Determination of the treatment of contingent liabilities in the financial statements is based on management's view of the expected outcome of the applicable contingency. To determine whether there is objective evidence of contingent liability, the management considers factors such as probability of occurrence or non-occurrence of uncertain future events and also consults a legal counsel of matters related to litigations.

5. FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT

5.1. Financial Risks Management Policies and Objectives

The company's overall risk management policy seeks to minimise potential adverse effects on the financial performance of the company. The company, however, does not have any written risk management policies and guidelines. The directors and the shareholders meet periodically to analyses, formulate and monitor the following risk management of the company and believe that the financial risks associated with these financial instruments are as follows:

The Company adopts a systematic approach towards risk assessment and management. Risk management is carried out in three phases, i.e. identification and assessment of risks, formulation and implementation of risk treatment, and monitoring and reporting of risk profile.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

5. FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT - cont'd

5.1. Financial Risks Management Policies and Objectives - cont'd

There has been no change to the nature of the company's exposure to financial risks or the manner in which it manages and measures the risk. Foreign currency risk and interest rate risk are measured using sensitivity analysis as indicated in respective sections.

a) Categories of financial assets and liabilities

The categories of financial assets and financial liabilities included in the statement of financial position and the headings in which they are included are as follows:

| Financial assets | <u>2017</u> US\$ | 2016 US\$ |
|---|---------------------|--------------|
| Loans and receivables: | | |
| Trade and other receivables | 2,041,916 | 2,718,809 |
| - Cash and bank balances | 1,428,523 | 1,133,295 |
| | 3,470,439 | 3,852,104 |
| Financial liabilities At amortised costs: | | |
| - Trade and other payables | 4,687,281 | 4,122,204 |
| - Finance leases | 75,325 | 105,216 |
| | 4,762,606 | 4,227,420 |

Further quantitative disclosures are included throughout these financial statements.

b) Credit risk

Credit risk refers to risk that counterparty will default on their obligations to repay amounts owing to company resulting in a loss to the company. The company's objective is to seek continual revenue growth while minimising losses incurred due to increase credit risk exposure. Due to the nature of its customer base, the company's concentration of credit risk and exposure are limited to three customers.

i) Trade and other receivables

The company's trade receivable related to sale of commodities to third parties. It is the Company's policy to enter into transactions with creditworthy customers and high credit rating counter-parties to mitigate any significant credit risk. The Company has procedures in place to control credit risk and that exposure to such risk is monitored on an ongoing basis. At the end of the financial period, the Company has no significant concentration of credit risk.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

5. FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT - cont'd

5.1. Financial Risks Management Policies and Objectives - cont'd

b) Credit risk - cont'd

ii) Cash and bank balances

The company's cash and bank balances as detailed in Note 8 to the financial statements are held in major financial institutions, which are regulated and located in Singapore, which the management believes are of high credit quality. The main purpose of these financial instruments is to finance the company's operations. All financial transactions with the banks are governed by banking facilities duly accepted with Board of Directors' resolutions, with banking mandates, which define the permitted financial instruments, and facilities limits, all of which are approved by the Board of Directors. All financial transactions require dual signatories.

As the Company does not hold any collateral, the maximum exposure to credit risk for each class of financial instruments is the carrying amount of that class of financial instruments presented on the statement of financial position.

Financial assets that are neither past due nor impaired

Bank deposits that are neither past due nor impaired are mainly deposits with banks with high credit ratings assigned by international credit-rating agencies. Trade receivables that are neither past due nor impaired are substantially companies with a good collection track record with the Company.

Financial assets that are past due or impaired

There is no other class of financial assets that is past due and/or impaired except for trade receivables.

c) Foreign current exchange rate risk

Foreign currency exchange rate risk arises from the change in foreign exchange rates that may have an adverse effect on the company in the current reporting period and in the future years.

The company trades mainly in the United States dollars, Great Britain Pounds and Euro dollars. The company also holds cash and bank balances in Singapore dollars for working capital purposes. Foreign currency exchange exposures are naturally hedged as both revenues and corresponding purchases are denominated in the above currencies. This natural hedge reduces significantly the financial impact of movements in the foreign exchange rates. However, exposure to foreign currency risk is monitored on an ongoing basis to ensure that the net exposure is at an acceptable level. Management believes that the foreign exchange risk is manageable.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

5. FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT – cont'd

5.1. Financial Risks Management Policies and Objectives - cont'd

c) Foreign current exchange rate risk - cont'd

The following table details the company's exposure at the end of reporting period to foreign currency exchange risk arising from recognised assets or liabilities denominated in a currency other than the functional currency of the entity to which they relate.

| 2017 | Euro US\$ | British pounds US\$ | Singapore dollars US\$ |
|--------------------------------|--------------|---------------------------|------------------------------|
| Financial assets: | | | |
| Trade and other receivables | - | 1,459,017 | 129,802 |
| Cash and bank balances | 1,069 | 191,845 | 206,384 |
| | 1,069 | 1,650,862 | 336,186 |
| Financial liabilities: | | | |
| Finance leases | - | - | (75,325) |
| Trade and other payables | | (1,187,190) | |
| | - | (1,187,190) | (75,325) |
| Net foreign currency exposures | 1,069 | 463,672 | 260,861 |
| | | | Singapore |
| <u>2016</u> | _ | Euro | dollars |
| | | US\$ | US\$ |
| Financial assets: | | | |
| Trade and other receivables | | 171,199 | 19,291 |
| Cash and bank balances | _ | 40,448 | 99,700 |
| | - | 211,647 | 118,991 |
| Financial liabilities: | | | |
| Finance leases | | - | (105,216) |
| Trade and other payables | - | (31,608) | (11,494) |
| | - | (31,608) | (116,710) |
| Net foreign currency exposures | = | 180,039 | 2,281 |

Sensitivity analysis

The analysis is prepared assuming the amount of monetary assets and monetary liabilities outstanding at the end of the reporting period was outstanding for the whole year. A 10% increase or decrease is used when reporting foreign exchange rate risk internally to key management personnel and represents management's assessment of the possible change in exchange rates.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

5. FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT - cont'd

5.1. Financial Risks Management Policies and Objectives - cont'd

c) Foreign current exchange rate risk - cont'd

Sensitivity analysis - cont'd

A 10% strengthening of United States dollars against the foreign currencies would increase profit or loss by the amount shown below:

| <u>2017</u> | Euro US\$ | British pounds US\$ | Singapore dollars US\$ |
|-------------------------------------|--------------|---------------------------|------------------------------|
| Increase in foreign currency impact | 107 | 46,367 | 26,086 |
| 2016 | Euro US\$ | British pounds US\$ | Singapore dollars US\$ |
| Increase in foreign currency impact | 18,004 | | 228 |

A 10% weakening of Singapore dollars against the above foreign currencies would have had the equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

The sensitivity analysis includes only outstanding foreign currency denominated monetary items. In management's option, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk as the year end exposure does not reflect the exposure during the year.

d) Interest rate risk

Interest rate risk arises from the potential change in interest rate that may have an adverse effect on the company results in the current reporting period and in the future years.

The company is exposed to interest rate risk through the impact of the changes on interest bearing finance leases and demand deposits. The company's policy is to obtain most favourable interest rate available in the market. The interest rates and terms of repayment of finance lease are disclosed in Note 12 to the financial statements. Demand deposit earns interest as stated in Note 8 to the financial statements. The risk exposure is not significant as the interest income is not significant source of the company's income. Management believes that the interest rate risk is manageable. Hence, the company does not use derivative financial instruments to mitigate the risk.

The company's exposure to interest rate on financial assets and financial liabilities are detailed in the liquidity risk section of this note.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

5. FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT - cont'd

5.1. Financial Risks Management Policies and Objectives - cont'd

d) Interest rate risk - cont'd

Interest rate sensitivity

No interest rate sensitivity analysis has been prepared as the amount would be immaterial to the company.

The company's exposure to interest rate on financial assets and financial liabilities are detailed in the liquidity risk section of this note.

Interest rate sensitivity

No interest rate sensitivity analysis has been prepared as the amount would be immaterial to the company.

e) Liquidity risk

Liquidity risk refer to risk that the company will not have sufficient funds to pay their debts as and when they fall due.

The company is exposed to liquidity risk. However, the holding company has agreed to provide unconditional financial support to the company to enable the company to discharge its obligations as and when they fall due as stated in Note 1(b) to the financial statements.

The following table summarises the company's remaining contractual maturity for its non-derivative financial instruments at the end of each reporting period based on undiscounted cash flows of financial instruments based on the earlier of the contractual date or when the company is expected to receive or pay.

| | | | Contractual undiscounted cash flows | | | flows |
|-----------------------|-----------|-----------|-------------------------------------|--------|-----------|-----------|
| | Effective | | Within 1 year | Within | More | |
| | interest | Carrying | or repayable | 2 to 5 | than | |
| 2017 | rate (%) | amount | on demand | years | 5 years | Total |
| | | US\$ | US\$ | US\$ | US\$ | US\$ |
| Financial liabilities | | | | | | |
| Trade and other | | | | | | |
| payables | | 4,687,281 | 4,687,281 | • | • | 4,687,281 |
| Finance leases | 3.587 | 75,325 | 28,429 | 52,120 | | 80,549 |
| Total undiscounted | | | | | | |
| financial liabilities | | 4,762,606 | 4,715,710 | 52,120 | ** | 4,687,830 |

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

5. FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT - cont'd

5.1. <u>Financial Risks Management Policies and Objectives - cont'd</u>

e) <u>Liquidity risk – cont'd</u>

| | | | Contractual undiscounted cash flows | | | flows |
|-----------------------|-----------|-----------|-------------------------------------|--------|---------|-----------|
| | Effective | | Within 1 year | Within | More | |
| | interest | Carrying | or repayable | 2 to 5 | than | |
| 2016 | rate (%) | amount | on demand | years | 5 years | Total |
| | | US\$ | US\$ | US\$ | US\$ | US\$ |

| Total undiscounted | | | | | | |
| financial liabilities | | 4,227,420 | 4,151,616 | 83,234 | * | 4,234,850 |

f) Fair value of financial assets and financial liabilities

Fair value is defined as the amount at which the instrument could be exchanged in a current transaction between knowledgeable willing parties in an arm's length transaction, other than in a forced or liquidation sale. Fair values are obtained through discounted cash flow models as appropriate.

Financial assets and liabilities

Management has determined that the carrying amounts of cash and bank balances, trade and other receivables, amounts due to holding company, related parties, finance leases, trade and other payables, based on their notional amounts, reasonably approximate their fair values because these are mostly short-term in nature.

The company does not anticipate that the carrying amounts recorded at end of the reporting period would significantly be different from the values that would eventually be received or settled.

5.2. Capital Risk Management Policies and Objectives

The company manages its share capital to ensure that it is able to continue as a going concern and maintains an optimal capital structure so as to maximize shareholder value.

In order to maintain or achieve an optimal capital structure, the company may adjust the amount of dividend payment to equity holders, return capital to equity holders, issue new shares, obtain new borrowings or redeem borrowings.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

5. FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT - cont'd

5.2. Capital Risk Management Policies and Objectives - cont'd

The company monitors capital using gearing ratio, which is net debt divided by total capital. Net debt is calculated as trade and other payables less cash and bank balances. Total capital is calculated as equity plus net debt. The company's overall strategy remains unchanged during the period.

| | <u>2017</u> US\$ | <u>2016</u> US\$ |
|--------------------------|---------------------|---------------------|
| Finance leases | 75,325 | 105,216 |
| Trade and other payables | 4,687,281 | 4,122,204 |
| Cash and bank balances | (1,428,523) | (1,133,295) |
| Net debt | 3,334,083 | 3,094,125 |
| Total equity | (1,141,373) | (137,578) |
| Total capital | 2,192,710 | 2,956,547 |
| Gearing ratio | N.M. | N.M. |

N.M. – Not meaningful. As disclosed in Note 1(b) to the financial statements the company faces difficulty in meeting its financial obligations due to shortage of funds to settle its liabilities. However, the holding company has undertaken to provide financial support to enable the company to pay its financial obligations.

The capital structure of the company's mainly consists of equity and net debts. The company reviews the capital structure from time to time and will continue to monitor economic conditions in which it operates and will make adjustments to its capital structure where necessary.

The company is not subject to any externally imposed capital requirements.

6. HOLDING COMPANY AND RELATED PARTY TRANSACTIONS

The company is a wholly subsidiary of Dhampur Sugar Mills Limited, incorporated in India which is also the company's ultimate holding company.

Related party relationship

FRS 24 defines a related party as an entity or person that directly or indirectly through one or more intermediaries controls, is controlled by, or is under common or joint control with, the entity in governing the financial and operating policies, or that has an interest in the entity that gives it significant influence over the entity in financial and operating decisions. It also includes members of the key management personnel or close members of the family or any individual referred to herein and others, who have the ability to control, jointly control or significantly influence by or for which significant voting power in such entity resides with, directly or indirectly, any such individual. The definition includes Parent Company, subsidiaries, fellow subsidiaries, associates, joint ventures and post-employment benefit plans, if any.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

6. RELATED PARTY TRANSACTIONS - cont'd

Some of the company's transactions and arrangements are with its related parties and the effects of these on the basis determined between the parties are reflected in these financial statements. The inter-company balances are unsecured, interest-free and repayable on demand.

a) <u>During the financial year, the company entered into the following transaction with its holding company:-</u>

| | <u>2017</u> | <u>2016</u> |
|--------------------|-------------|-------------|
| | US\$ | US\$ |
| Purchases of goods | 3,347,976 | 19,249,365 |
| Sales of goods | (1,218,786) | (2,760,000) |

Sales and purchases of goods to/from its holding company are made at prices, which are not materially different to those applicable to third party customers and suppliers.

b) Compensation of key management personnel

Key management personnel are directors, those persons having authority and responsibility for planning, directing and controlling the activities of the company, directly or indirectly.

The remuneration of key management personnel of the company during the financial period is as follows:

| | <u>2017</u> | <u>2016</u> |
|---------------------------------|-------------|-------------|
| | US\$ | US\$ |
| Compensation paid to a director | | |
| - Remunerations | 286,120 | 255,916 |

| 31 to 60 days | 273,664 | 546,572 |
| 61 to 90 days | - | 390,869 |
| Trade receivables that are | | |
| past due but not impaired | | |
| 91 to 180 days | - | 171,198 |
| | 1,822,675 | 1,108,639 |

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

9. TRADE AND OTHER RECEIVABLES - cont'd

ii) Other receivables

In determining the recoverability of other receivables, the company considers any change in the credit quality of the other receivable from the date credit was initially granted up to the reporting date. The majority of credit risk for other receivables for the company relate to amounts due from third parties, which are unsecured, interest-free and repayable on demand.

Management has assessed the credit worthiness of the other debtors including a related party considers that no allowances for impairment of other receivables is necessary as there were no recent history of default in respect of these debtors.

iii) Rental deposit

Rental deposit represents the two months rental caution deposit placed with the landlords of the office premises and the director's residence.

Trade and other receivables are denominated in the following currencies:

| | <u>2017</u> US\$ | <u>2016</u> US\$ |
|--|---------------------|---------------------|
| Singapore dollars United States dollars | 129,802 453,097 | 19,291 2,528,319 |

Government Grant

i) Special Employment Credit

The Special Employment Credit ("SEC") was introduced as a part of the 2014 Singapore Budget initiations to support employers, who hire Singaporean employees aged above 50. The main objective of SEC is to raise the employability of older, low-waged Singapore employees and also help the Employers to tap on this group of older workers for their skills and experiences to augment their manpower needs.

ii) Wage Credit Scheme

The Wage Credit Scheme ("WCS") was introduced in 2014 as part of a three-year Transition Support Package for Businesses. The objective of the WCS is to help the companies cope with the rising wage costs and encourage companies to fee up resources and to make investment in productivity investments and share the productivity gains with their employees. The Government will co-fund 40% of the wage increase given to Singaporean employees earning a gross monthly wage of \$\$4,000 and below. WCS is computed based on monthly CPF contribution made by the employer for their employees.

The major components of income tax expenses are as follows:

| 2017 US\$ US\$ |
|-------------------|
| <u> </u> |
| |

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

17. INCOME TAX EXPENSE - cont'd

b) Relationship between income tax benefit and accounting loss

The reconciliation between tax benefit and the product of accounting loss multiplied by the applicable corporate tax rate for the periods ended 31 March 2017 and 31 March 2016 are as follows:

| | <u>2017</u> US\$ | <u>2016</u> US\$ |
|---|---------------------|---------------------|
| Loss before income tax | (1,003,795) | (929,250) |
| Tax benefit of the domestic income tax rate 17% (2016: 17%) Tax effect of: | (170,645) | (157,973) |
| taxable expensesdeferred tax assets not recognised | 20,085 150,560 | 15,246 142,727 |
| Total income tax expenses | | - |

c) Unrecorded deferred tax benefit

The company has tax loss carry forwards and temporary differences from capital allowances available for offsetting against future taxable income as follows:

| | <u>2017</u> US\$ | <u>2016</u> US\$ |
|---|----------------------|---------------------|
| Amount at beginning of year Amount in current year | 1,775,322 891,529 | 935,753 839,569 |
| Amount at end of year | 2,666,851 | 1,775,322 |
| Deferred tax benefit on above unrecorded at 17% (2016: 17%) | 453,365 | 301,805 |

The realisation of the future income tax benefits from tax loss carry forwards is available for an unlimited future period subject to the conditions imposed by law including the retention of majority shareholders as defined.

The deferred tax benefit of the remaining tax loss carried forward and temporary differences from capital allowances have not been recognised in the financial statements because it is not probable to determine that the future taxable profit will be available against which the company can utilised the benefits thereon.
